

EXTENSIONS

at home care...

- DO'S**
- brush before washing to avoid matting
 - wait 24 - 48 hours before washing your hair after installation
 - use a soft bristle brush, always starting at the ends + working your way up brushing in a downward motion
 - shampoo using a 'squeezing' motion vs. rubbing
 - keep conditioner, products & hot tools away from base
 - wear hair in a loose ponytail/braid when swimming, exercising & sleeping
 - use proper at home products to care for + maintain extensions
 - wear your hair in a low loose pony or braid when sleeping
 - keep up on your maintenance appts every 8 - 10 weeks

- DON'T'S**
- brush your hair harshly
 - sleep with your hair wet
 - remove extensions yourself - professional job only!
 - wait too long to move your extensions up! waiting longer than recommended can cause matting & damage

follow these guidelines to ensure your extensions stay in the best condition possible!
